

1955 PRICE LIST
of Orchid Plants

Our principal business is the production and sale of Cut-flower orchids direct to florists. The plants offered herewith are our surplus of varieties we grow for our own use.

Our PRICES are low because we keep our overhead low, and in order to do this we limit our plant sales to mail orders. Retail sales take more time and cost us more money to make. Our greenhouses are not built for sales houses as the walks are too narrow and the houses too crowded to allow the general public to wander thru them without causing more damage than the sales are worth.

Visitors are welcome, however, IF they will let us know in advance when we may expect them and if they will show some consideration for our time and investment. We do not allow small children to have the run of the greenhouses as there are too many BRATS being raised by people nowadays whom receive no proper training at home and whom cause us more trouble and worry than any sales to their parents may be worth to us.

PLANT SIZES. Please do not ask for larger size plants in the varieties listed in thumbor $1\frac{1}{2}$ inch pots. WE DO NOT have any larger plants of these varieties. Some growers offer plants from the same seed pod in pot sizes from $1\frac{1}{2}$ to 6 inch pots. We do not. We DISCARD all of the small slow growing seedlings when we transplant from the flasks and again when we transfer them to $1\frac{1}{2}$ inch pots so we have only one size to offer.

NO C.O.D. ORDERS, PLEASE.

Because there are a few dishonest people we have had to make this rule, otherwise we would have to raise our prices and make everyone pay for those plants we did not get paid for,

We advise Express Shipments on all except the smallest orders as we have seen mail orders arrive that look as tho the packages had been run over by a ten ton tractor or perhaps used to play ball with.

If you want your order sent by parcel post please include estimated postage, if you send too much money we will include extra plants to make up the difference, or refund the difference, as you request. Parcel post Collect charges cost you extra money and sometimes mean delays in deliveries.

Our prices do not include delivery charges.

SALES TAXES. If you live in CALIFORNIA. please do not forget the California State Sales Tax of 3%.

Unusual crosses of Cattleya Hybrids in 1½ inch pots.

- #724. L.C. Elstead Gem. a cross of a bronz-green Cattleya Bicolor and the Butter-yellow Laelia Zanthina. should produce heavy textured small to medium sized flowers of unusual colors and shades.
696. Laelia Tenebrosa, bronz-yellow x Cattleya Leopoldii, green variety. an earlier cross of these parents has produced some very nice large flowering hybrids in green, yellow and bronze colors.
697. C. Eleanore, large choice white, purple lip, x C. Leopoldii, large green variety. this cross may produce some very unusual shades and combinations. as far as we know this combination has not been tried before.
683. Laelia Tenebrosa var. Walten Grange x Cattleya Empress Frederica Aurea. We expect these to be prolific flowering yellow hybrids.
684. Laelia Tenebrosa x Cattleya Aclandiae. the Aclandiae is a large green flowered type with purple spots. because of the Aclandiae parent this cross is slow growing and the seedlings are small. Interesting prospects but results are unknown.
642. C. Gatton Ruby x Cattleya Intermedia Aquinii. We have a very few of the smaller plants left from this cross. Should produce interesting splashed varieties.

Any of the above hybrid seedlings are offered at \$1.50 each or orders of ten or more plants of one variety at \$1.00 each.

Collectors Items... We have a very few seedlings in 1½ inch pots of Laelia Jonghiana and Laelia Perrini to offer at \$1.50 each. These are rare varieties of Laelias which are very hard to secure.

Vanda Seedlings in 1½ inch pots.

these are becoming very popular and can be grown with your cattleyas.

- #680. Vanda Onomea (Rothschildiana x Sanderiana, large flat flowers in Rose, Blue and Mauve etc.
681. Vanda Clara Shipman Fischer x Rothschildiana, large flowers in buffs, creams, pinks, greys etc.
682. Vanda Burgeffii x Suavis, prolific bloomers in several combinations of colors.
693. Vanda Puna x Herzianna. Blue shades and pastel blends.
694. Vanda Manila x Lammellae Boxallii. The Manila is a large Pink, result of this cross is unknown.
700. Vanda Faustii x Memorii of Iwasaki. Variable and it should produce some fine varieties

The above Vanda Seedlings are offered at \$1.50 each or the above collection of six plants (one of each cross) for \$5.00.

Novelty Item. Epidendron-Cattleya Hybrid.

- #622. A cross of the large flowered Green and white Epidendron Marie Ames and a large flowered dark lavender Cattleya Harrisonae. A few plants available in 1½ inch pots at \$1.50 each.

Unusual crosses of Cattleya hybrids in 1 1/2 inch pots.

#724. L.C. Biscuit C.M. a cross of a brown-green Cattleya Biscuit and the butter-yellow Lantia Biscuit. Should produce heavy texture small to medium sized flowers of unusual colors and shades.

696. Lantia Tembroos, brown-yellow x Cattleya Leopoldii, green variety. An earlier cross of these parents has produced some very nice large flowering hybrids in green, yellow and bronze colors.

697. C. Elanore, large choco white, purple lip, x C. Leopoldii, in green variety. This cross may produce some very unusual shades and combinations, as far as we know this combination has not been tried before.

683. Lantia Tembroos var. Winton Grange x Cattleya Empress Freda. Answer. We expect these to be prolific flowering yellow hybrids.

684. Lantia Tembroos x Cattleya Aclandiae. The Aclandiae is a large green flowered type with purple spots. Because of the Aclandiae parent this cross is slow growing and the seedlings are small. Interesting prospects but results are unknown.

642. C. Gattson Ruby x Cattleya Intermedia Apurimac. We have a very few of the smaller plants left from this cross. Should produce interesting spotted varieties.

Any of the above hybrid seedlings are offered at \$1.50 each or orders of ten or more plants of one variety at \$1.00 each.

Collectors items... We have a very few seedlings in 1 1/2 inch pots of Lantia Jonghans and Lantia Perini to offer at \$1.50 each. These are rare varieties of Lantia which are very hard to secure.

Vanda Seedlings in 1 1/2 inch pots. These are becoming very popular and can be grown with your Cattleyas.

#680. Vanda Onomoe (Rothschildiana x Sappaniana, large flat flower in Rose, Blue and Mauve etc.

681. Vanda Clara Shipman Fischer x Rothschildiana, large flowers in white, cream, pink, green etc.

682. Vanda burgessii x Suvata, prolific bloomers in several combinations of colors.

693. Vanda Funa x Herminia. Fine shades and pastel blends.

694. Vanda Mantia x Lammeliae Bocklandt. The Mantia is a large pink, result of this cross is unknown.

700. Vanda Parvati x Memorial of Iwasaki. Variable and it should produce some fine varieties.

The above Vanda Seedlings are offered at \$1.50 each or the above collection of six plants (one of each cross) for \$5.00.

Novelty item. Epibombus-Cattleya Hybrid. #622. A cross of the large flowered Green and white Epibombus Marie Ames and a large flowered dark lavender Cattleya Harrison. A few plants available in 1 1/2 inch pots at \$1.50 each.

Community Pots;

This is the first time during the past several years that we have offered community pots in our listings. We do not have very many of any of the following to offer and they will be sold out before the season is very far along.

For those growers whom like to share thier plants and for group orders this is the cheapest way to buy orchid seedlings:

- Dendrobium Superbiens. ten or more large plants ready for 2 inch pots. Three pots only available \$7.50
- #716 Zygopetalum x Cymbidium seedlings in Communities
20 or more plants per pot. 5.00
- # 709 Zygopetalum x Miltonia seedlings. 20 or more plants
per community 5.00
- #706. Oncidium Sarawades. 10 to 15 plants per pot 5.00
693. Vanda Puna x Herziana. 10 to 20 seedlings per pot 5.00
699. Cymbidium(schegellii x Orchidvale)x Ethel Ward var Oriole
731. Cymbidium Peri Var. Mustard x Priam Var. Ada Meech
733. Cymbidium Peri Var. Mustard x Apollo F.C.C.
Any of the above cymbs, 10 to 20 plants per pot \$7.50
- # 697 New Cattleya Hybrid.
C. Eleanore Alba x Cattleya Leopoldii green variety.
724. New Laelia Cattleya Hybrid.
L.C. Elstead Gem.
- Either of the above new crosses. 10 to 20 plants
in each community pot. per community \$7.50

MATURE FLOWERING SIZE PLANTS OF ZYGOPETALUM MACKII

We offer these for the first time. This is one of the so called (BLUE) orchids. Can be grown with cymbidiums or cattleyas. They are easy to grow, producing 3 to 4 foot sprays of six, eight or more $3\frac{1}{2}$ to 4 inch flowers with green, bronze-barred petals and sepals and a blue and white lip. Good cut flowers. These plants were grown from seed in our greenhouses. They are not imported plants that are hard to flower.

Plants in four to six inch pots. All have flowered. The culls have been burned. Priced at \$5.00, \$6.50 and \$7.50 depending on the number of bulbs and leads.

SPECIAL OFFERS

MOTHERS DAY SPECIAL.

LAELIA-CATTLEYA APHRODITE. Mature Plants flowering the second and third times. This hybrid is named after the Goddess of Love and Beauty. It is the first generation cross of Laelia Purpurata and Cattleya Mendellii. They produce 4 to 6 flowers per spray, medium-large to large in size, varying from almost White to Rose-lavender in color, all with Purple lips. They are now in sheath and can be shipped from February to some time in April to flower for you at or about MOTHERS DAY.

Special Price \$5.00 per plant. The early orders get the larger plants.

Oncidium Rogersii. The regular golden Dancing Girl Orchid. We have a few plants to offer at 2.50 to \$5.00 per plant.

Oncidium Spathelatum . Large plants producing long sprays of many yellow flowers about 1 to 1½ inches in diameter. Easy to grow.
\$5.00 per plant.

REED-TYPE Epidendrons. We have large plants of this type in stock from which we sell Off-shoot plants. They come in many colors and are offered assorted colors \$1.00 per plant or \$6.00 per dozen. They can be planted in coarse leafmold with good drainage. These offshoot plants will usually flower within the year.

Calanthe Orchid Bulbs. We offer only a few dormant bulbs during the early spring months. These are planted in a rich soil with good drainage and they flower during the late fall or winter months after the new leaves have dropped off the bulbs., producing long spikes of White flowers with red-purple lips. After flowering the bulbs should be rested until the following spring. Special price while they are available. \$1.50 per bulb.

SPECIAL COLLECTORS ITEM.

SARCOCHILUS PALLIDIS. These plants are native to the Phillipine Islands and look like Phalaenopsis plants. They produce cream colored flowers like small phalaenopsis flowers. However the flowers are no good for cutting, strictly a novelty. Mature plants in baskets While they last \$3.50 each. these are established plants, and are adapted to greenhouse culture.

Mature Cymbidium Plants and Back-bulbs. During our repotting season for Cymbidiums each year we are able to offer divisions of many of our plants from our cut-flower stock. We do not believe in fairies or in getting rich quick and therefore we do not ask the prices of \$50.00, \$100.00, \$150.00 and up per bulb that some growers ask. If you are interested write us a letter and tell us what you would like and if we have it available we will tell you about it and quote a sensible price. At the proper seasons we are able to offer to send you sample flowers (less pollen) of some of our choicest types. (when these samples are sent we charge you the market value of the flower plus postage and packing, which is deductible from the price of the plants when they are ordered.

Our price on unestablished back-bulbs is from \$1.00 to \$5.00 each.

MOTHERS DAY SPECIAL.

Laelia-Cattleya Aphrodite. Mature plants flowering the second and third times. This hybrid is named after the Goddess of Love and Beauty. It is the first generation cross of Laelia Purpurata and Cattleya Mendelii. They produce 4 to 6 flowers per spray, medium-large to large in size, varying from almost white to rose-lavender in color, all with Purple lips. They are now in stock and can be shipped from February to some time in April to flower for you at or about MOTHERS DAY. Special Price \$2.00 per plant. The early orders get the larger plants.

Oncidium Rogerian. The regular Golden Dancing Girl Orchid. We have a few plants to offer at \$2.50 to \$3.00 per plant.

Oncidium Spatulation. Large plants producing long sprays of many yellow flowers about 1 to 1 1/2 inches in diameter. Easy to grow. \$3.00 per plant.

NEED-TYPE Epidendrum. We have large plants of this type in stock from which we sell offshoot plants. They come in many colors and are offered assorted colors \$1.00 per plant or \$5.00 per dozen. They can be planted in coarse leafmold with good drainage. These offshoot plants will usually flower within the year.

Calanthe Orchid Bulbs. We offer only a few dormant bulbs during the early spring months. These are planted in a rich soil with good drainage and they flower during the late fall or winter months after the new leaves have dropped all the bulbs, producing long spikes of white flowers with red-purple lips. After flowering the bulbs should be rested until the following spring. Special price while they are available. \$1.50 per bulb.

SPECIAL COLLECTORS ITEM.

SARCOCHILUS PALLIDUS. These plants are native to the Philippine Islands and look like Phalaenopsis plants. They produce cream colored flowers like small Phalaenopsis flowers. However the flowers are no good for cutting, strictly a novelty. Mature plants in baskets. While they last \$3.50 each. These are established plants, and are adapted to greenhouse culture.

Mature Cymbidium Plants and Back-bulbs. During our reporting season for Cymbidiums each year we are able to offer divisions of many of our plants from our cut-flower stock. We do not believe in fairies or in getting rich quick and therefore we do not ask prices of \$50.00, \$100.00, \$150.00 and up per bulb that some growers ask. If you are interested write us a letter and tell us what you would like and if we have it available we will tell you about it and quote a sensible price. At the proper seasons we are able to offer to send you sample flowers (less pollen) of some of our choicest types. (When these samples are sent we charge you the market value of the flower plus postage and packing, which is deductible from the price of the plants when they are ordered.

Our price on unestablished back-bulbs is from \$1.00 to \$2.00 each.
